

End-to-End AP Automation

All businesses do AP, but no single process is the same. Ottimate fits into your team's unique dynamic — and works overtime so you don't have to.

Spend **80% less time** on accounts payable & experience a better day-to-day!

Invoice Management

AI and machine learning digitize any invoice and auto-map them to your GL with line-item detail.

VendorPay

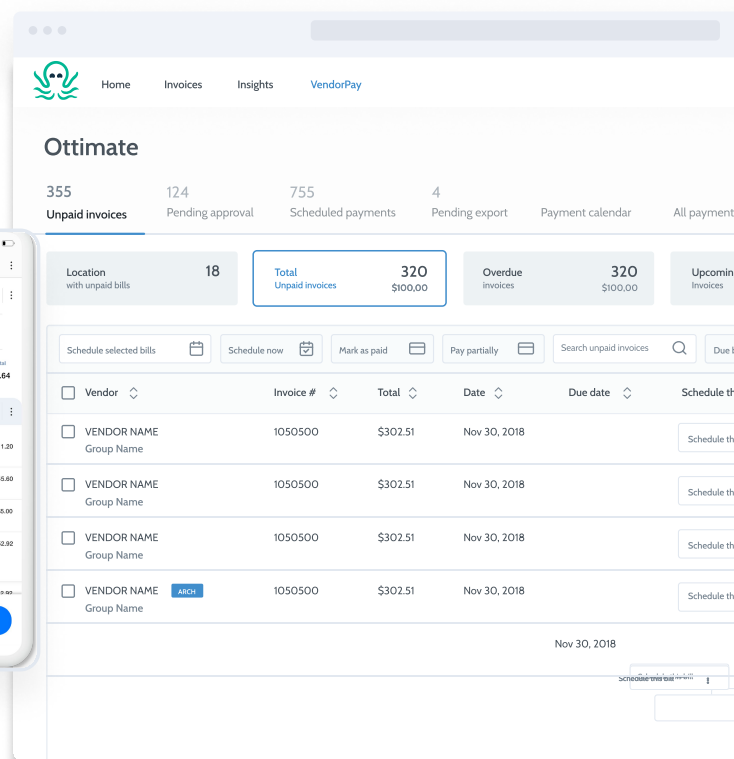

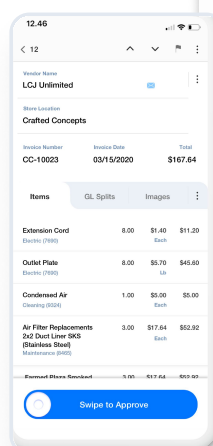

Schedule and pay your invoices from one view, regardless of your vendors preferred payment method, with payment detail tied to the invoice.

Spend Management

Improve budget management, collect receipts, manage reimbursements and issue corporate cards to staff.

Complex Approvals

Set invoice, payment, and spend approval policies — of any complexity.
